Poughkeepsie, New York

Dear Sir:

Thank you for your inquiry and request for our catalog.

Enclosed find your new "Desquire" catalog. You will note this modular line of Office Furniture is a completely new concept in Office Furniture.

Desquire with its simple lines is certainly unique in appearance, however, this furniture was basically designed for its function. There is purpose and reason for every detail and dimension.

You will notice the myriads of combinations possible with the number of components available.

All exterior surfaces are Walnut Woodgrain Plastic Laminate (full N.E.M.A. standards). This Laminate looks and feels like the finest oil rubbed Walnut and is exclusive with "Desquire".

At your request we will send you our price list. If there is any further information you require, please write us anytime; we will be glad to help you.

Yours truly,

Thomas-Davis Manufacturing Co., Inc.
